Dedicated and aspiring Computer Science graduate with a strong foundation in programming and a passion for innovation. Skilled in Full Stack Development. Seeking an Full Stack Developer role to leverage technical expertise in designing user-friendly and impactful applications. Eager to contribute to a collaborative team and solve real-world problems through technology.

## PROFESSIONAL EXPERIENCE

### Software Developer Trainee

Prepleaf by masai | Sept 2023 – Present

This training helped us to improve Problem Solving skills.

- Worked on real life problems using Data structure and algorithms using C++.
- Worked with MySQL to design and implement a database schema for storing and retrieving data.

### Full Stack Web Developer Internship

NextShala Edutech | Jul 2023 – Sept 2023

- Developed and maintained web pages using HTML, CSS, and JavaScript. Ensured the website was responsive and accessible across various devices and browsers.
- Designed and implemented a responsive and visually appealing user interface using Tailwind CSS. Optimized the website's performance by reducing the size of the CSS file and minimizing the number of HTTP requests.
- Worked with MySQL to design and implement a database schema for storing and retrieving data. Wrote SQL queries to extract data from the database and display it on the website.

## EDUCATION

- **Bachelor of Engineering in Computer Science**

KLE Institute of Technology, Hubballi, Karnataka, India

Relevant Coursework: Full Stack Development

Expected Graduation: May 2024

CGPA: 7.8

- **Senior Secondary (XII), Science**

DR R.B Patil Mahesh PU College, Hubballi, Karnataka, India

Completed: March 2020

Percentage: 90.80

- **Secondary (X)**

Kendriya Vidyalaya IIT, Mumbai, Maharashtra, India

Completed: April 2018

Percentage: 92.48

## CERTIFICATIONS

- **MERN Development, Codehelp** Jan 2023 – June 2023

Acquired skills in MongoDB, ExpressJs, NodeJs, ReactJs with fully functional ed-tech platform that enables user to create and rate educational content.

- **Javascript Basics, Coursera**

Gained the knowledge of scripting that allows you to implement the complex feature on web pages.

- **Introduction To Object-Oriented Programming With Java, Coursera**

Completed comprehensive course focused on conceptual of object oriented and implementation in java.

- **The Bits and Bytes of Computer Networking, Coursera**

Gained the knowledge about basics of computer networking, the TCP/IP and OSI networking models and how actually the different layers work

## PROJECTS

---

- **StudyTech (Ed-tech Software)** | June '23 - Sept '23

StudyTech is a fully functional ed-tech platform that enables users to create, consume, and rate educational content. The platform is built using the MERN stack, which includes ReactJS, NodeJS, MongoDB, and ExpressJS.

- **Shopping Cart App** | May '23

Ecommerce Application where you can add your favorite items in cart and checkout. This is built using ReactJS.

- **Weather App** | April '23

This project is a weather condition tracker that uses the Open Weather API to fetch current weather data for a given location. It displays the current temperature, weather description, and other related weather information. This is built using ReactJS.

- **Razorpay Clone** | March '23

Developed a user-friendly UI and responsive clone of Razorpay payment solution using Tailwind CSS Framework.

## SKILLS

---

- **Technical Skills:** C++, Javascript, ReactJS, ExpressJS, MongoDB, NodeJS, Tailwind CSS, HTML5, MySQL, DSA, System Design.
- **Soft Skills:** Communication, Decision Making, Project Management, Team Collaboration
- **Languages:** C++, Java Basics, Javascript,
- **Field of Interest:** Full Stack Development, Devops

## ADDITIONAL DETAILS

---

- Finalist at YESIST Innovation - 2023, organized by IEEE, for presenting an innovative idea in the Sustainable Agriculture and Miscellaneous track. Qualified to participate in the final round held in Egypt.
- Worked as Coordinator for College fest "Advitiya-22 and 23" with the best Team efforts and management
